

Thanks for your interest in sponsoring Flock! Flock brings together Fedora contributors from around the world to discuss new ideas, work to make those ideas a reality, and continue to promote the core values of the Fedora Community: Freedom, Friends, Features, and First. Fedora is a rich and thriving international free software community that produces a popular distribution of Linux ® every six months. This distribution is the core that is used by Red Hat to create the Red Hat Enterprise Linux product family.

In Flock's fourth year, we're headed to Krakow, Poland for four full days of talks, workshops, hackfests, and sprints. We make every effort to bring in as many of our contributors from around the world as possible, but also record our presentations for those who cannot attend in person. Sessions will cover the breadth of the Fedora Project, including (but not limited to):

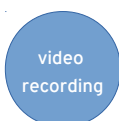

- Building a better Fedora distribution
- Growing the Fedora user base
- Making life better for Fedora contributors
- New technologies (cloud, container, embedded, desktop, hardware)

Most of our funds go directly to covering travel and lodging costs for our contributors, as well as to the variety of costs incurred by an event like this. We make every effort to be as cost-effective as possible while putting on a great event for the Fedora community, so even small contributions make a big impact. We hope that you will join us!

## Sponsorship Levels

Platinum	Gold	Silver	Bronze	
Large	Large	✓	✓	Exhibit Hall Space
✓	✓	✓	✓	Logo & Name on website
✓	✓	✓	✓	Logo in Program
Full Page	½ page	¼ page	✗	Advertisement in Program
✓	✓	✗	✗	Logo on conference shirt
